Kindle eBooks > Business & Money > Business Life > Ethics

## Customer Reviews

This book was horrible, there is absolutely nothing in this book that if you did a basic Google search you would not find for free. It also feels like the author copied the info for this book from different articles online. Some of his "secret" techniques include: Secret #1. Dispute errors (hum new concept) Secret #4. Set a budget (common sense) Secret #9. Close unused accounts (which actually lowers your score) the author even quotes Experian states closing accounts would impact your credit report. This "book" was clearly put together in about an hour, I wish I could give it a negative 5 stars

Great book to read if you just want the basic facts. Quick and to the point. Good book to share.
