Everyone remembers that because it was huge. But can you believe that was from the last decade? It was June of 2009. What about all of the unbelievable hype surrounding the very start of that decade. Remember Y2K? 2000 was also the start of a new millennium. And that is what makes the decade of 2000 through 2010 a significant period in life for many people. And is there any need to talk about what happened in 2001? Many people still have a difficult time watching any older TV re-run, or movie, that has scenes in it from New York with the World Trade Towers clearly showing in the background. Yet despite that... the Hollywood Scandals kept rolling on. And they continued, non stop, through the whole decade. Also, keep in mind that the internet was nothing like it is today. TMZ, all of the gossip websites, did not even exist at the start of that decade. This book is your fascinating trip down memory lane. It is your personal Hollywood reporter. Stories you will undoubtedly remember, and some you may have forgotten about. But all that you won't believe where the time has gone by. In chronological order. Some survived the scandal and may even be considered as bigger celebrities like Robert Downey Jr. Others, unfortunately, did not. HOLLYWOOD - The Biggest Hollywood Stories Of The Decade 2000 through 2010 will cover: \* Hollywood Cheating Scandals\* Celebrity Sex Scandals\* Celebrity Drug Scandals \* Celebrities Arrested \* Famous Celebrities Trials\* Celebrities Arrested For Murder\* Quotes From The Celebrity When Available\* Plus Video Clips When Available\* And more This is a very unique kindle guide. At the time it was created there are no other kindle books like it at all. However, it is a quick and easy read. It is not a 300 page novel with excess information, that will require a large commitment of time just to read through it all. And again, when available, it also includes some quotes. These are the actual words from the celebrity themselves. And video coverage of the scandal, when available. Plus it includes the celebrity bio information. Click Cover For A Free Preview. ## **Customer Reviews**

There is a lot of info in this book but is probably the most poorly written books I have ever read. And whoever was the editor needs to find another line of work. I couldn't really enjoy the content because I couldn't get past the atrocious writing. Epic fail. Sorry.

If you're into Hollywood gossip and scandals, you're sure to find it in abundance between these covers. The book was liberally sprinkled with errors. If I had proofread this book, I would have made at least 155 corrections. The author repeatedly used "should of" or "must of" instead of "should have" and "must have." Also she referred to "President Busch" (yes, like the beer) at least twice.

words. Nothing new. Hard to read, poor editing. Had to keep reading this over twice, missing letters in sentences. If not for editing, would've given two stars.

I liked this book, it held my interest on almost all the stars. The celebrities are all interesting and sometimes you get the authors rants. I enjoyed reading and the 400 pages went so fast!
