The English Teacher: A Novel

Synopsis

For listeners of John le Carré and viewers of Homeland, a slow-burning psychological spy thriller by a former brigadier general of intelligence in the Israeli army. After attending her father's funeral, former Mossad agent Rachel Goldschmitt empties her bank account and disappears. But when she makes a cryptic phone call to her former handler, Ehud, the Mossad sends him to track her down. Finding no leads, he must retrace her career as a spy to figure out why she abandoned Mossad before she can do any damage to Israel. But he soon discovers that after living undercover for so long, an agent's assumed identity and her real one can blur, catching loyalty, love, and truth between them. In the midst of a high-risk, high-stakes investigation, Ehud begins to question whether he ever knew his agent at all. In *The English Teacher*, Yiftach R. Atir drew on his own experience in intelligence to weave a psychologically nuanced thriller that explores the pressures of living under an assumed identity for months at a time.

I don't read a lot of spy thrillers, but Penguin asked if I'd like to review it, and after reading on the back that it was perfect for fans of the TV show *Homeland* I quickly said yes. That comparison was spot on and made for an interesting read. Throw in the fact that the author used to work in the intelligence field and I was sold. I love reading from authors who have personal experience in the field they choose to write about; even if a story is fictional, it can't hurt to have the benefit of experience to make the plot more realistic and believable. Since I don't read much in the way of military/spy/political thrillers, I can't say I know who to compare the writing style to, but what I can say is that it was an exciting read that is sure to dazzle fans of the genre.
