## **Customer Reviews**

Easy to read and was required for my class. I really like the structure of this book and how well organized the chapters were. If you need this for your class or you just want to learn a little about Microeconomics this is the book for you

Same text as the bound book for \$40 less. Not sure I care for the text itself, but supplementing with online videos from other sources makes it easier to understand. There are materials online that make the subjects much easier to understand than this book does.

Compared to what everyone else paid for this book. This was an AWESOME deal! There was a lot of highlighting in the book, but it didn't bother me. If anything it helped me in completing my HW. I just hope when I send it back they say that I wrote in the book.

Cheaper than a collegebookstore would sell it! Easy to follow through!

Great book and easy to follow. I am now a microeconomics wizard!!!

Shipped within two days, awesome book for my Econ class!

I just want to say that this book is really used

Great book for MTSU Microeconomics class
